CAT6A UTP/FTP

Keystone Jack

Product Description:

CAT6A Keystone Jack surpassed all AT6A performance requirements and complies with 10 Gigabit Ethernet application system suitable for connection between FD to the outlet of the work area, providing up to 550MHz available bandwidth.

Technical Characteristics:

Unique exterior design, simple, compact.

Comply with ergonomic principle and with termination-free design.

Unique PCB circuit board design reduces EMI/RFI interference, low alien nation loss and high return loss.

Overall Zinc Alloy Shielding design meets the industry standards.

Meet the requirements of both T568A/T568B with clear colour labels.

Solid and corrosion phosphor bronze IDC enables over 250 terminations.

Accept 23 AWG wires, phosphor bronze contact with MAX 50μ gold plate, with a durability of 1500 matching recycles.

Easy installation with clear coloured labels on termination cap.

Termination caps prevent wire from dropping off.

With backward compatibility of CAT6 and lower classes.
